- MacBook
- Electrical outlets required
- Headphones
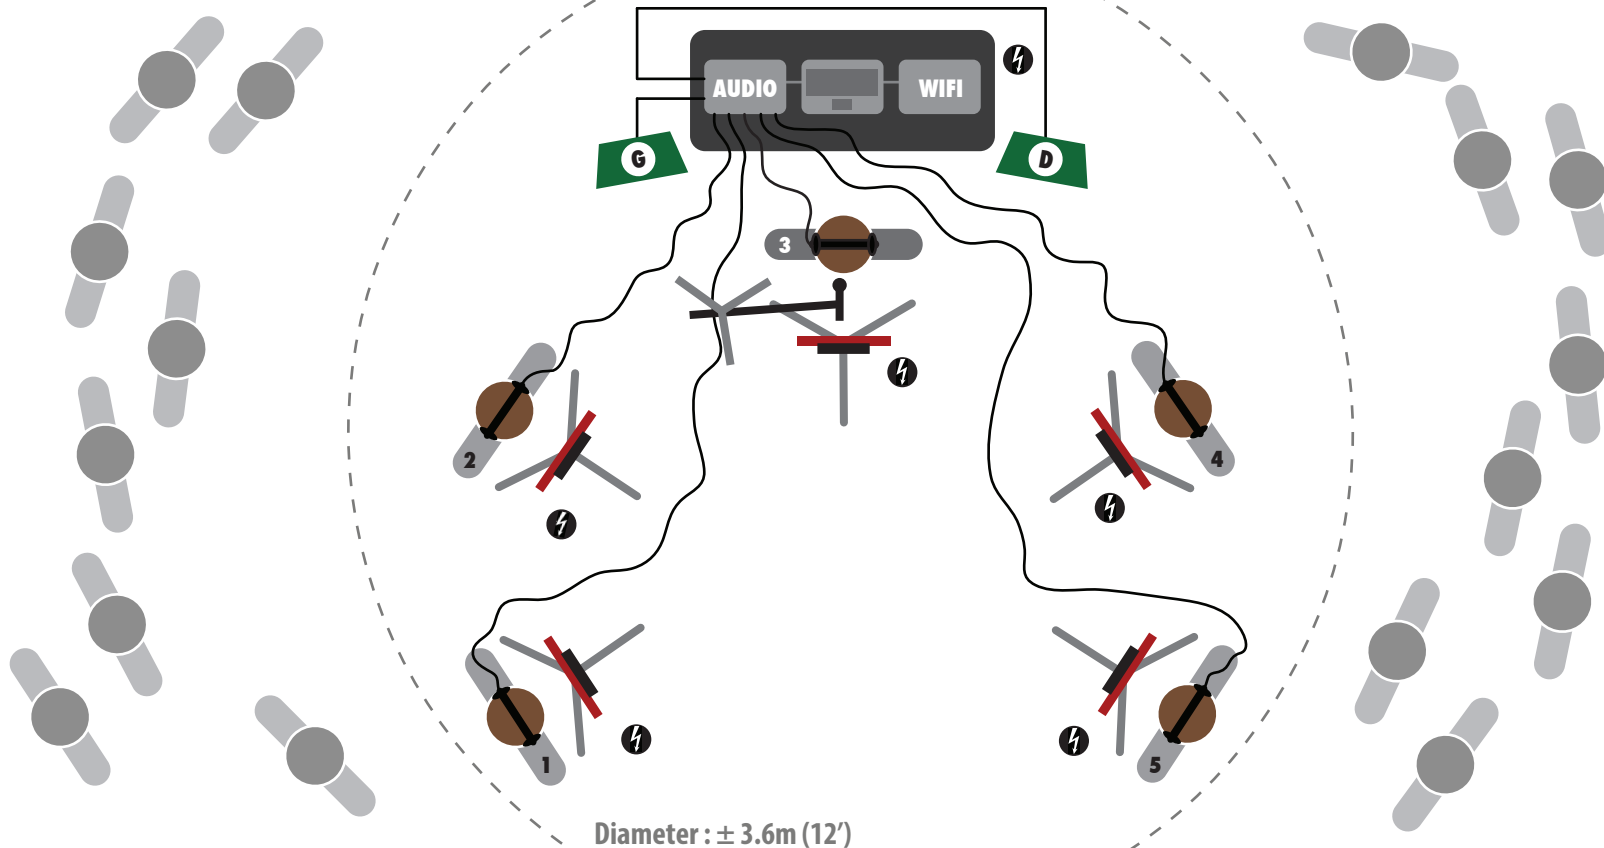

Notes

- Each user station requires 2 electrical outlets.
- 8 electrical outlets are required behind the master table.
- Each user station is connected to the master station through a private wifi network (811.2g).
- Users 1, 2, 4 et 5 are volunteers from the crowd.
- Headphones can be replaced by amplified stage monitors.
- Total power usage is about 600W.
- The system uses Type A (NEMA 5-15) power connectors.

Required equipment

- A table
- One microphone with stand
- Five (5) pairs of headphones with amplifiers (or as many amplified stage monitors)
- Main speakers and amplifiers
- Audio cabling, electrical cabling and safety cable covers
